Take Control of the Documents
You Need to Run Your Business

For 64 years, Kern has been helping companies manage their documents destined for the mailstream. In an increasingly digital world, there is still a place for paper documents, businesses just need better tools for managing them. For this, Kern introduces EDGE, the electronic document gateway for the enterprise. For businesses large and small, Kern EDGE is a robust and cost effective web-based service that will digitize, manage, and automate your document assets.

Kern EDGE is SaaS, (Software as a Service) eliminating the need for servers, software maintenance, and upfront capital investment. EDGE is highly configurable with EDGE*line,* a suite of available applications for workflow, EDGE*sync* for integrating with existing business applications, and EDGE*mail* for production mail archiving and digital delivery.

Compliance and Audit Protection
Regulatory compliance and annual audits require significant time and effort. With the significant penalties and legal risks, don't take the chance and let EDGE ensure that you and your employees are always compliant. EDGE also provides a record for quick retrieval when accessing documents for customer service.

EDGEdock — Digitize and Organize
EDGE*dock* is the central location for your business documents. Here your documents are placed into your own private cloud in one of three ways:
- Scanning: through existing network scanners, one of our preferred scan systems, or by our team (on-site or at our facility)
- Electronic Image Transfer (manual indexing)
- Electronic Data Transfer (automatic indexing)

EDGE*dock* is accessible through any web-enabled device and a powerful search engine helps you find the right document quickly.

Electronic Document Gateway for the Enterprise
The EDGE Document Gateway is the headquarters for your electronic documents.

Store, Access, and Share documents in a secure, private cloud.

The EDGE Difference

- SaaS (Software as a Service) that is a operating expense which eliminates capital investment

- Private Cloud

- Interface with existing business systems and ECM systems, like Oracle and SAP

- EDGE is also a service bureau for document scanning

- Quick implementation with a low learning curve

EDGE is certified for E-security

Kern EDGE Electronic Document Gateway for the Enterprise

Access and Manage

EDGE*line*

Many companies are facing the issue of spreading out more work among fewer employees. EDGE*line* is designed to make employees more productive by meeting specific department needs with workflow and process automation. Whether you utilize EDGE for a single department or across your enterprise, EDGE*line* gives you what you need without buying what you don't.

Integrate and Enhance

EDGE*sync*

For businesses that have already invested in large enterprise software systems, EDGE*sync* integrates with your existing applications to expand your document management capabilities at a fraction of the cost , compared to upgrades from Oracle, SAP, or other custom solutions. Integrate EDGE without interrupting your business processes and use EDGE's clear user interface to manage your documents.

Deliver and Save

EDGE*mail*

Kern knows mail and we see the trends of the mailing industry with a big focus on print suppression. Email alternatives promoting digital mail serve to separate you from your customers, delivering your critical communications in their network. Additionally, digital mail services have increasing costs as you increase your distribution. To truly reduce mailing costs, businesses need a delivery tool that is light and drives customers back to your site where you control the message. EDGE*mail* takes your mailings from the print stream, archives them, and converts them to PDF for email delivery. Experience real savings with Kern EDGE*mail.*

Collect and Distribute

EDGE*post*

Paperless office policies reduce printing expense and improve organization and record keeping. With EDGE*post,* businesses can eliminate the time consuming task of distributing mail internally. Scan in mailed documents and instantly deliver them to the right person. Receive your mail faster and pair with EDGE*line* for instant productivity improvements and a permanent record of all inbound communications. Employees working remotely? Get them their mail wherever they are, even on their mobile phone on the go. Save big and take the hassle out of internal mail management.

Committed To Customer Success

The success of our customers is the most important part of our business. At Kern, we believe that we don't succeed unless our customers succeed. Fast systems, advanced technology, and outstanding technical support are the fundamental strengths of what we do. By establishing a mutually beneficial partnership, both our customers and Kern are able to achieve success and we back it up with a guarantee.
